PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing RESTful APIs, reusable React components, and responsive user interfaces with JavaScript (ES6+), HTML5, and CSS3. Experienced in CRUD operations, API integration, and debugging across the full software development life cycle. Currently delivering technical training while building and maintaining the company's live official websites, techcaddjalandhar.com and techcaddludhiana.com.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL, Java, C/C++ (Basic)

Frontend: React.js, HTML5, CSS3, Bootstrap, Responsive Web Design, Component-Based Architecture

Backend: Node.js, Express.js, REST APIs, JSON, Async/Await

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman

Data & Analytics: Pandas, NumPy, Matplotlib, Seaborn, Power BI

EXPERIENCE

IT Trainer

Techcadd Computer Education | Phagwara, India | Feb 2025 – Present

- Deliver web development and programming training to 40+ students, combining theoretical instruction with project-based practical learning.
- Mentor students through end-to-end development of real-world web projects, covering project planning, debugging, and deployment.
- Design and structure course curriculum, assignments, and hands-on coding exercises to strengthen practical development skills.
- Built and maintain the company's official websites, techcaddjalandhar.com and techcaddludhiana.com, developing the React front end, responsive layouts, course pages, and SEO-optimised technical content.

Software Developer Trainee

Numetry Technologies | Pune, India | Sep 2024 – Jan 2025

- Developed a full-stack e-commerce web application using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Built responsive, reusable UI components in React.js to ensure consistent usability across desktop and mobile devices.
- Integrated backend REST APIs with the React frontend to support product listing, cart, and CRUD operations.
- Collaborated with team members to debug application issues and optimize frontend performance and UI/UX layout.

MERN Stack Developer Trainee

Omninos Solutions | Mohali, India | Jan 2024 – Jun 2024

- Built multiple full-stack web applications using MongoDB, Express.js, React.js, and Node.js during intensive hands-on training.
- Developed RESTful APIs and connected them to dynamic React frontends using JSON and asynchronous requests.
- Implemented responsive layouts, animations, and modern UI components to improve user experience across screen sizes.

PROJECTS

Techcadd Official Websites (Live) | React.js, Vite, JavaScript (ES6+), Framer Motion

- Built and deployed the company's public-facing websites – **techcaddjalandhar.com** and **techcaddludhiana.com** – using a component-based React architecture with reusable, animated UI sections.
- Implemented responsive layouts across mobile, tablet, and desktop, plus course detail pages and an SEO-optimised content structure.

Placement Management System | Full Stack Web Application

- Designed and developed a placement portal with separate role-based dashboards for students and recruiters.
- Implemented a calendar-based interface enabling students to view and receive job notifications.
- Built full CRUD functionality allowing recruiters to manage job postings, company profiles, and alumni records.

Online Attendance System | Python (Tkinter), MySQL

- Developed a role-based desktop application with separate admin and student access levels.
- Implemented database connectivity and CRUD operations for student registration, attendance marking, and record retrieval.
- Designed an intuitive GUI for efficient navigation and day-to-day attendance management.

EDUCATION

B.Tech in Computer Science Engineering

Guru Nanak Dev Engineering College, Ludhiana, India | Jun 2020 – Jun 2024 | GPA: 8.74/10.0
